I have all of these except Vol 2. I love these books! If you are not familiar, they give the very best instructions from the subscription Beads&Button Magazine for the entire calendar year. I have been a subscriber for years, and love to keep the magazines handy as well, but to have the very best of the ideas and instructions in one handy place is indispensable. The instructions are always quite clear and easy to follow, and you don't generally have to worry about not having or being able to get the particular beads needed. If nothing else, Fire Mountain will have what you need a a good price.

As always, Bead&Button Magazine's yearly "Creative Beading" series continues to impress...

Volume 9 continues it's tradition of introducing the newest techniques and including the most recent

types of beads and embellishments in the collection of bead patterns for off-loom projects, looms, soutache, wire-wrapping and more. A nice addition to any serious beader's book stash!

I love ever thing about this book, easy to follow

Love the book. Has awesome project and details in pictures and descriptions on how to do it. Clear to understand... not recommended for a beginner, but if you have the patience you can follow easy.

Got this for my Mom for Christmas, and she loved it! She can now get rid of the old magazine issues!

Book spine was damaged/torn. Not exceptable!

Always love the annuals. Thank you.
