Customer Reviews

Yeah, the usual thing I do with my microwave is to reheat my food, that's it and that's all. But when I checked out this book, I realized my microwave doesn't only function as that. I think I got a great choice of recipe book. I can now maximize my microwave with the great recipes here. The breakfast recipes are just so good! Great cookbook!

Very decent book if you prefer to create your own meals without all the bad stuff they put in those microwave frozen meals. Learned a lot from this. Well done to the author.
