Customer Reviews

It shows basic knots and weaving for lanyards and bracelets. Not all-inclusive but worth the price. I actually know a good deal of knots as a sailor, but wanted to learn some braids for making lanyards.

I haven't knotted, braided or macrame anything in many years. This book provided the necessary information to get started regardless of experience.

Very easy to follow ,excellent photos showing the steps I will look for it in paperback so I can easily flip back and forth.

this book is very informative. it has step by step instructions, i thought it would be more illustrated and with more elegant finish products.

I found the instructions confusing. Had to read a few times before understanding. I don't think I would recommend this book

Loved this book for clearly teaching the basic beginning knots! The pictures and accompanying descriptions easily show how to tie the basic knots needed for a good foundation in knotted crafts. I would definitely recommend this for those who would like to learn from the very beginning!

The photos didn't always match the text. More photos would have helped, but the text was very helpful by itself.

WHAT a VERY NEAT/INFORMATIVE BOOK ON KNOTS!!! LOVE IT!!!! ijcorona
