Customer Reviews

It’s a miniture book which I didn’t expect. I didn’t see in the description that it was so little. I like it but hope it doesn’t get lost because it’s so small. Don’t think I would have bought it if I realized how little it is. :(

I bought this book as a gift for a baby shower. I was expecting a regular size book, but it was a tiny 4x4 inch thick hard bound book. I kept it and included it with my other gifts. I thought that it was too small for the price.

Looks certainly can be deceiving! The book looks like a decent size online. When I received this for my daughter I was very disappointed in its size. Itâ ™s more of a little keepsake book that a childâ ™s book.

Not only did I not see just how very mini it is, but it is not a typical book. Has little phrases on each page, similar to that of conversation hearts, not a book with a plot. "Spread some cheer" "Love is in the air" "Shoot for the stars" "Share a laugh". That’s it. Those type of little diddies is all the book is. With care bear pictures. Yes, the quality is good. The quality is the only reason it received two stars. Glossy pages and hardback cover like that of a full size book, but tiny. My other reason for knocking off a star is because it has a paper protective cover, like many hardback books, but the actual hardcover is plain. With the book being oh so very tiny, the cover is a pain to keep on and it is not nearly as cute without it. Baby blue plain book when off. Also the book has too many pages for being so tiny. Good for little hands, but not for adults. That being said, they might as well have made it a cardboard mini book. If it was even an inch bigger height and width wise it would be pretty cool. Way too small for how they executed it.

Really cute! I should have read the description better though because the book is tiny! I thought it was a full size book.

Okay.. so it’s a 5"X7" book. Perfect for little hands. My two year old takes it everywhere. The only bad thing about the book is I have to read it every night. :)

Description should tell buyers that the book is only 2"X2"! I would have never bought it if I had read the other comments. I was disappointed.

As others have stated was expecting a full size book and it is approximately 2"x2". Cute but tiny for the price
