Synopsis

"The absolute best Sourdough guide on .. Hands down."This hot new eBook dives into all that you need to know about the exciting world of sourdough! Its pages are packed not only with delicious recipes and cooking techniques, but also an interesting short history and science on the subject, in a manner that is both fun and easy to understand."The recipes that I've used from this book have made for some of the tastiest sourdough breads and dishes, that I've ever had before. I love the varieties of the flavors given and the fact that I'm not only being taught of ways to bake the bread - but also to how to use it to make even more interesting meals for my family." - Edith Grant"I really didn't know anything about sourdough, but a few of my friends always talked about how good it was and how they would order it every time they were out. I decided to borrow a few eBooks on the subject to see if I could go ahead and have a scrumptious sourdough for my friends, the next time they came to my place to eat. I didn't have gripes with any of the eBooks borrowed... But in my opinion, from what I've seen this is, hands down, the best sourdough guide on . It's friendly tone and simple-yet-interesting explanations on the bread made my entire reading experience with it that much better. For me, the great recipes were just a plus."- Mario MascitelliUpon reading "An Easy Guide to Sourdough" you'll be able to bake multiple types of sourdough breads as well as create a starter in more ways than one! You'll also be able to cook a magnitude of delicious dishes where sourdough is merely a wonderful addition to the recipe (such as with our Harlem meatloaf, Turkey and Swiss Panini, and Croque Monsieur.) As an added bonus you'll also learn how to use bread machines as well as understand the history and science behind the dough, which are both interesting to say the least! So what are you waiting for?! Learn all about the exciting world of sourdough and get a head start on how to bake and cook dishes for every meal with "An Easy Guide to Sourdough!"

Customer Reviews

I have absolutely zero cooking/baking skills. However, since I moved out on my own, I've had to ramp up the cook books. I've always loved sourdough bread and sourdough pretzels, and pretty much everything sourdough, so I figured this would be a smart purchase. I'm happy to report that I was right and this eBook is FANTASTIC. I'm so impressed with how easy it is to comprehend and the great variety it offers. The friendly tone of the author actually makes it fun to read. I'd definitely recommend it.

So far, so good! Sourdough reminds me of my grandmother's AMAZING bread! I never got the chance to learn all of her sourdough secrets, so I'm using this book as a second chance to learn! The recipes are easy to follow, and I've already acquired a ton of valuable sourdough info. A must for anyone who likes to eat or cook sourdough! Lots to learn, and this book makes it easy!

too simple i got so much more info from a website! on sourdough, i wanted to return it....

Haven't used yet but sure it will be great. I collect cookbooks. Thank you.
