## Synopsis

Selling on eBay: How I Made \$2,000 A Month With No Inventory  
Learn How I Made an EXTRA \$24,000 a Year Selling Online and Spent No Money Upfront For Inventory  
Step by Step Guide  
You know the phrase "You need money to make money" Well I wanted to prove that wrong. This course will teach you the actionable steps you can take to make money online by spending no money upfront.

About Matt Bernstein  
Hi, my name is Matt Bernstein and I've been selling online since 2006 and I've SOLD over \$750,000 DOLLARS in total. On January 31st 2012 I started Sports Pulse and I made my FIRST SALE 2 WEEKS LATER. SALES to date as of 12/1/2013 have been OVER \$525,000.00.

\$0 Upfront Costs on Inventory  
You'll learn how to gain access to ANY product at WHOLESALE PRICES. You'll be able to LIST their inventory and when you make a SALE they'll SHIP your order. You NEVER need to keep an INVENTORY. You only buy the customers order AFTER you make a sale. You make a PROFIT when you sell your items at RETAIL PRICES - wholesale prices = MONEY YOU KEEP!

Don't Quit Your Day Job  
Start working on your project at night. Instead of watching TV, work on your business. Instead of going to bed at 10 go to bed at 11. I'm not talking about all-nighters or 16 hour days. I'm talking about squeezing out a few extra hours a week. That's enough time to get something going. If things work for one person it will effectively work the same for any other person. You do not need any prior knowledge because the course shows you step by step actionable items that you need to take in order to achieve making money with no money upfront.

Benefits to You  
You'll make back the investment 5 times in 1 sale! If you don't like the information, just ask for a refund and you'll get a 100% refund no questions asked within 30 days. If things work for one person it will effectively work the same for any other person. You do not need any prior knowledge because the course shows you step by step actionable items that you need to take to make money on eBay and .

BONUS: How to Start a Business  
The Simple 5-Step Formula on How to Start an Online Business  
You'll learn | Why you should get a business license and how to register through your state to obtain one. Why you should get a business bank account and how to open one. Why you should go beyond eBay to sell items and create your own eCommerce website. Why you should get a merchant account and payment gateway to save \$1,800 per year by not using PayPal to accept payments. How to get a good logo for your business for only \$5 and a GREAT logo for your business for \$150 with the NetMen Corp.

## **Customer Reviews**

I think this was a very informative book with lots of good information for those who are interested in drop shipping. I enjoyed it and would recommend it to beginners especially. I love the step by step instructions on how to find profitable items to sell via eBay and I like how he explains how to contact manufacturers . I wish there was a bit more information on HOW to find those manufacturers but

other than that, it was a great book.

Disappointed in book. Waste of money and time for old information which would be next to impossible to follow his guidelines today. Save your money, don't buy. I would give it NO stars if it were an option.

It's worth a dollar if you have never researched the idea ever. But the information is so incredibly basic. there's no real tips or tricks and it ends with the author basically plugging his website to invite you to take a \$50 video teaching course. Sort of like a bait and switch book. Plus the info in the book is available free on his blog (rightly named) lowcosthustle. I am an internet marketer, and there are books and programs that we refer to as 'newbie' friendly. This book is BELOW that standard. It was written BY a newbie. Ebay and both, can give you more information than this book does. And it's just a copy of what's on his blog. I will give the guy credit- he is doing all the right tricks to make money online- and that is create a course to sell, then promote it through a blog, youtube, kindle, facebook, etc to attract people to that course. The problem is, all the sources give the EXACT info. And that info is very, very lame. There's no insites or anything. There's really nothing of much substance. Most products (books) start off with mere basics just to add pages, but then give 'tips and tricks' to help you stand out from the crowd and encourage ways of doing your own thinking. There is none of that here. Even so, the basics in this book are even less than standard. Like I mentioned before, Ebay's and 's websites both give more information than this half hearted attempt at creating valuable information. Judging by the material presented in all forms from this guy, there's no way of telling if he actually has made any money with the method he wants to 'teach'. It's like asking someone to teach you to swim and he gives you a swimsuit and says "OK, your good to go. Go swim."

I really dig this book. Granted it is basic and for newbies, but that's exactly what I am and I found it clear, straight forward and extremely motivational. In face, I've just set up my pay pal and ebay accounts. Tonight I'll decide what I want to sell and figure out how to source it. I do wish that the book had a reliable source guide but over all, I'm very pleased. Yes he is posting this information all over the net but that goes to show you that he's a decent guy with an agenda other than money because this book only cost less than \$3.00. I didn't see anything about buying a video course for \$50...in fact he didn't push any product through out the book, only other things that he was giving away free. Great job Author, I'll come back in a month and let you guys know how well I'm doing

following the instruction in this book.

I already have an ebay account and sell but wanted to go further. This book helps me to realize I need to be selling higher selling problems and the step to go through to get a business license. But I read specifically for the dropshipper info. and he gives no specifics or help at all. So I am left to my own resources. I learned a few things but overall I wouldn't buy this book.
